

# 21K Canned Wipers

*Prevent contaminants from entering system*

Chesterton® positive rake wipers are designed to effectively clean and dislodge foreign matter from retracting rods or rams to prevent scoring and system contamination in open cavity designs. These wipers provide excellent performance for hydraulic applications.

The CW21K is manufactured from a machining process which allows the flexibility to create any size based on equipment dimensions. The canned portion of the seal provides stability due to an interference fit that allows it to be pressed into an open cavity gland design.

These wipers are available in various material combinations based on equipment requirements while the canned\* portion of the seal can be manufactured from metallic material and other engineered plastics.

- *Interference press fit design does not require support of other external devices*
- *Single-acting, abrasion-resistant design for hydraulic applications*
- *Positive rake lip design effectively wipes contaminants away from surface*
- *Manufacturing process allows flexibility to create any size*
- *Sizes made to accommodate international standards including ISO and DIN*

**SPECIFICATIONS**

Material (designation)	Size Range mm (inch)	Temperature °C (°F)	Speed m/s (ft/min)
AWC700 (FKM)	6 to 152 (1/4 to 6)	-30 to 200 (-20 to 400)	1.5 (300)
AWC800 (EU)	6 to 1320 (1/4 to 52)	-50 to 85 (-60 to 185)	0.9 (185)
AWC830 (EU)	6 to 254 (1/4 to 10)	-35 to 75 (-30 to 165)	0.9 (185)
AWC860 (EU)	6 to 508 (1/4 to 20)	-50 to 120 (-60 to 250)	1.25 (250)

\*Can material: AWC 650 (POM) or AWC665 (Nylon)

## GLOBAL SOLUTIONS, LOCAL SERVICE

Since its founding in 1884, A.W. Chesterton Company has successfully met the critical needs of its diverse customer base. Today, as always, customers count on Chesterton solutions to increase equipment reliability, optimize energy consumption, and provide local technical support and service wherever they are in the world.

Chesterton's global capabilities include:

- Servicing plants in over 100 countries
- Global manufacturing operations
- More than 500 Service Centers and Sales Offices worldwide
- Over 1200 trained local Service Specialists and Technicians
